In the very center of Phuket Island, construction of a new and modern complex - The City Phuket - begins. It combines elegance, contemporary design, and an ideal location. Its architecture is reminiscent of the splendor and sophistication of the Andaman Pearl, reflecting the rich cultural and natural beauty of the island.

Located in close proximity to the center of Phuket, the complex offers not only beautiful and modern apartments but also transportation accessibility to key infrastructure facilities: shopping centers, hospitals, schools, and major tourist attractions.

Thoughtfully designed down to the last detail, each element of the complex is created for the comfort and satisfaction of its residents. Pools, a fitness center, a co-working area, and a private home cinema will make living here comfortable and convenient. Landscaped design and relaxation areas will create the atmosphere of a true resort right in the city.

The City Phuket is not just a complex. It is a new dimension of comfort and quality of life on one of the most popular and picturesque islands in the world.

Consider the opportunity to become part of this unique project. Book a viewing right now. For our clients, the developer offers an installment plan during the construction period, as well as the possibility of a long-term loan (mortgage) at 5% per annum, with an initial payment of 50%.
